

The header image features a large green dome-shaped structure, likely a biogas digester, in the foreground. In the background, there is a field of green crops and a large European Union flag with its characteristic blue field and yellow stars. The text 'Bio Certificate' is overlaid in white on the left side of the image.

Bio Certificate

Powerhouse declares that

Prysmian Netherlands B.V.

purchased **62.000 MWh** Guarantees of Origin, derived from **Biomass** in the **Netherlands**,
for the following period:

from **1-1-2017** until **31-12-2017**.

Biomass is a collective name for different types of sustainable raw materials that can be used to generate renewable electricity.

One GoO guarantees the production of one MWh by a renewable source. Herewith Prysmian Netherlands B.V. takes responsibility for the company's effects on environmental and social wellbeing.

In the Netherlands, Guarantees of Origin are the only accepted evidence that a certain amount of electricity is generated from eligible renewable sources. The system of Guarantees of Origin ensures that the supply of this electricity is verifiable from producer through user.
